EXPERIENCE

PRINCIPAL UX DESIGNER 2016–PRESENT

Red Hat, Raleigh, NC

In my current role, I primarily focus on improving customer experience and engagement in Red Hat's award-winning Customer Portal, working closely with product owners to support customers managing their subscriptions for products such as Red Hat Enterprise (RHEL), a leading enterprise Linux platform.

SENIOR UX DESIGNER 2010–2016

Lenovo, Morrisville, NC

As the design team lead for Lenovo's eService UX & Customer Satisfaction team, I worked closely with optimization managers, user researchers, product management, and development teams in both the United States and China to create world-class customer-focused web support that drives engagement and conversion. Responsible for leading all aspects of the user experience for current and next-generation web experiences while ensuring designs are intuitive and support Lenovo's business objectives and brand.

EDUCATION

BFA in Graphic Design

East Carolina University

Webmaster Certification

North Carolina State University
